UNINYVIN CABLES

Nyvin type Electrical Cables are usually used in Air Craft Wiring. The Aircraft Industry is one of the potential users of these cables. The standard to manufacture and testing Nyvin Cable has been derived from BS 6117 i.e. "Nyvin type of electrical cables for Aircraft", issued by the British Standards Institution. Apart from Aircraft, in modern days, these cables are widely used in various applications of Uninterrupted Power Supply (UPS) like battery connections, Internal Wiring, Battery Bank interconnections etc. because of its efficiency, now a days, these cables are also used for Panel Board Wiring and other Industrial applications.

These cables are suitable for use where, in continuous service, no combination of ambient temperature and conductor current produces a stabilized conductor temperature which exceeds 105°C. These cables are also suitable for fixed wiring in aircraft when temperature up to -75°C are encountered, but are not suitable for severe flexing at temperatures below -30°C.

These cables do not support combustion. These cables are suitable for use in areas where ester-base fluids are present. Maximum working voltage is 600 Volts, Maximum frequency is 1600 Hz and operating temperature range -30°C to 105°C.

Nyvin type single core electric cables are made out of Annealed Tinned Copper Conductor, Heat Resistant (HR 105°C) PVC, Fiber Glass Braids, Nyvin Braids, Nylon sheathing and Nylon Lacquer etc. These cables can be supplied in the form of wire or in the form of wiring harness/cable assemblies.

LETTER TO SHAREHOLDERS

Dear Shareholders,

I, Suhir Hiralal Shah (Managing Director), heartily welcome you all to the RELICAB FAMILY. It is with your support and trust we have been able to ride the storm of volatilities in the post Covid Era and are about to embark on a strong growth path using our established set up.

I am proud to share that FY 2023-24 has been a year of high growth and profitability for your company. The company has garnered operating revenues of Rs. 3801.63 lacs with EBITDA of Rs. 470.12 lacs and a Profit after tax of Rs. 146.68 Lacs.

Relicab has always been an early adopter of technology. We are now aggressively moving technology to the core of our business. It is central to connect with customers, dealers and the sales force. Your Company is continuously investing in technology to maintain a strong differentiator in the Industry and enable a non-linear growth going forward. We are riding in the same spirit of action powered by clarity. We see a reshaping of the competitive environment. We are responding by sharpening our focus and strengthening our efforts to create value. As with any business, we encountered several problems and faced some difficult decisions. Those challenges, however, ultimately provided insights and practical knowledge of business and our economic system. We learned the importance of teamwork, communication, listening to customers, and producing high-quality products. The path ahead isn't easy and that's probably why treading it successfully would be all the more rewarding.

During said year, we have acquired additional factory land and building area adjacent to our plant on a lease basis to increase our production lines and efficiency in production. Further we have overhauled our machinery and re-aligned the same to match the market dynamics.

We intend to grow the company in a sustainable manner and match the growing demand for Electrical Cables and PVC Compound in India as well as international markets.

I thank you all for your continued support and trust shown in us and we will strive to take the company to newer highs as we move ahead with our business expansion plans.

Sr. No	Name of Director/ KMP and Designation	Remuneration of Director/ KMP for the financial year 2023-24	% Increase in Remuneration In the Financial Year 2023-24	Ratio of remuneration of each Director/ to median remuneration of employees	Comparison of the Remuneration of the KMP against the performance of the Company
1.	Mr.Suhir Shah (Managing Director)	20,16,000	--	10.40	Revenue from operations increased by around 10 % whereas terms of remuneration of MD remains unchanged
2.	Mr.Varun Jain (Company Secretary)	2,43,000	--	--	---

*None of the Independent Directors drew remuneration.

A. The ratio of the remuneration of each director to the median remuneration of the employees of the company for the Financial Year:

The median remuneration of employees of the Company during the Financial Year was Rs.193207 /- and ratio of the remuneration of each Director to the median remuneration of the employees of the Company for the Financial Year is provided in the above table.

B. The percentage increase/decrease in the median remuneration of employees in the Financial Year:

In the Financial Year, there is a decrease of 3.08% in the median remuneration of employees.

C. The number of permanent employees on the rolls of Company:

There were 42 (Including KMP) permanent employees on the rolls of the Company as on March 31, 2024.

D. Average percentile increase already made in the salaries of employees other than the managerial personnel in the last Financial Year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:

Relicab Annual Report 2023-24

Average percentile decrease in salaries of employees stand at 3.08% % while percentile of managerial personnel remains unchanged .The percentile increase/decrease is commensurate with responsibilities assigned to each role of employees and managerial personnel.

E. Affirmation that the remuneration is as per the remuneration policy of the company:

It is hereby affirmed that the remuneration paid is as per the Policy for Remuneration of the Directors, Key Managerial Personnel and other Employees.

REMUNERATION POLICY FOR DIRECTORS, KEY MANAGERIAL PERSONNEL AND OTHER EMPLOYEES

1. Introduction

Relicab Cable Manufacturing Limited (RCML) recognizes the importance of aligning the business objectives with specific and measurable individual objectives and targets. The Company has therefore formulated the remuneration policy for its directors, key managerial personnel and other employees keeping in view the following objectives:

1.1.1 Ensuring that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate, to run the company successfully.

1.1.2 Ensuring that relationship of remuneration to performance is clear and meets the performance benchmarks.

1.1.3 Ensuring that remuneration involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the company and its goals.

2. Scope and Exclusion:

2.1 This Policy sets out the guiding principles for the Human Resources, Nomination and Remuneration Committee for recommending to the Board the remuneration of the directors, key managerial personnel and other employees of the Company.

3. Terms and References:

In this Policy, the following terms shall have the following meanings:

3.1 "**Director**" means a director appointed to the Board of the Company.

3.2 "**Key Managerial Personnel**" means

- (i) the Chief Executive Officer or the managing director or the manager;
- (ii) the company secretary;
- (iii) the whole-time director;
- (iv) the Chief Financial Officer; and
- (v) such other officer as may be prescribed under the Companies Act, 2013

3.3 "**Human Resources, Nomination and Remuneration Committee**" means the committee constituted by RCML's Board in accordance with the provisions of Section 178 of the Companies Act, 2013.

4. Policy:

4.1 Remuneration to Executive Directors and Key Managerial Personnel

4.1.1 The Board, on the recommendation of the Human Resources, Nomination and Remuneration (HRNR) Committee, shall review and approve the remuneration payable to the Executive Directors of the Company within the overall limits approved by the shareholders.

4.1.2 The Board, on the recommendation of the HRNR Committee, shall also review and approve the remuneration payable to the Key Managerial Personnel of the Company.

4.1.3 The remuneration structure to the Executive Directors and Key Managerial Personnel shall include the following components:

Relicab Annual Report 2023-24

- (i) Basic Pay
- (ii) Perquisites and Allowances
- (iii) Stock Options
- (iv) Commission
- (v) Retiral benefits
- (vi) Annual Performance Bonus

4.1.4 The Annual Plan and Objectives for Executive Directors and Senior Executives shall be reviewed by the HRNR Committee and Annual Performance Bonus will be approved by the Committee based on the achievements against the Annual Plan and Objectives.

4.2 Remuneration to Non-Executive Directors

4.2.1 The Board, on the recommendation of the HRNR Committee, shall review and approve the remuneration payable to the Non- Executive Directors of the Company within the overall limits approved by the shareholders.

4.2.2 Non-Executive Directors shall be entitled to sitting fees for attending the meetings of the Board and the Committees thereof. The Non- Executive Directors may also be entitled to profit related commission in addition to the sitting fees.

4.3 Remuneration to other employees

4.3.1 Employees shall be assigned grades according to their qualifications and work experience, competencies as well as their roles and responsibilities in the organization. Individual remuneration shall be determined within the appropriate grade and shall be based on various factors such as job profile, skill sets, seniority, experience and prevailing remuneration levels for equivalent jobs.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

BUSINESS OVERVIEW:

Our company Relicab Cable Manufacturing Ltd. was incorporated in 2009 with an aim to corporatize the business of wires and cables manufacturing being carried out since 1999 in the name and style of M/s. Relicab Cable Corporation (Partnership concern). After receiving our certificate of incorporation, we have taken over the running business of this partnership concern through a business takeover agreement dated April 01, 2009.

Our Company is engaged in the business of manufacturing and marketing of PVC Compounds and Wires and Cables and we have successfully developed a wide base of business network and made our presence in this industry since over 15 years. We manufacture wires and cables to provide cost-effective and quality solutions for various electrical connectivity requirements, mainly for the industrial segments. We accomplish this through customized design and development, continuous research & development initiatives, quality manufacturing and reliable delivery of all varieties of cables. We are involved in manufacturing a complete array of wires and cables that are used in diverse sectors encompassing virtually all industries like telecom, electrical, automotive and household appliances and the new field of wind energy.

Our product range includes a wide range of wires and cables including armored / unarmored and single core as well as multi core flexible cables, control & power cables, instrumentation cables etc. using high quality copper wires in HR, FR, FRLS, ZHFR forms and other raw materials. Our Company has as part of its backward integration initiative; an in-house PVC Compound manufacturing facility which supplies compound raw material for our Wires and Cables manufacturing business as well as being sold directly as finished goods to other users of PVC Compound. We offer all types of PVC Compounds i.e. Insulation, Sheathing, Inner sheath, HR, FR, FRLS & Master batches.

To support our operations and carry out in-depth testing & quality management activities, our Company maintains a number of well designed and equipped test facilities and laboratories, which enable various designs and conceptions to be tested and implemented. Our Company also carries out periodic calibrations of instruments which are required in day-to-day use, to ensure higher accuracy of products. These laboratories and testing facilities ensure that all RELICAB products adhere to strict quality norms and also adhere to the relevant ISI and international specifications.

Our focus on quality products and services has enabled us to garner clients who are some of the leading industrial, electrical and telecommunication names in India and abroad. We have developed a long standing relationship with our clients which include companies like, ABB India, Schneider Electric, Crompton Greaves, Bharat Bijlee, Siemens, Maktel Control & Systems, etc., to name a few. Our products are being exported through exporters to countries such as Russia, Uganda, Indonesia, Nigeria, Singapore, and UAE. We supply our products under our own brand name – “Relicab”.

Over the years we have strengthened our manufacturing capacity by undertaking expansion from time to time. Our manufacturing facility located at Daman (Union Territory) has a capacity to manufacture approximately 7,510 Km per year of wires and cables and almost 1500 tons of PVC Compound per annum. We have also been improving our technologies and constantly developing products and features to our PVC Compound, Moulded Wire Harness, Wires and Cables etc. in order to differentiate ourselves from competitors and increase our product qualities in the future. However, due to lack of available working capital, we have not been able to grow our turnovers and business capacity utilizations substantially. With the political and macro-economic scenario in India, we believe that demands for quality products within our space would increase and hence we propose to augment our working capital fund base in order to better utilize our installed capacities and formulations thereby increase sales volumes and improve margins.

India Wires and Cables Market Outlook

The India wires and cables market size reached a value of nearly INR 1,083.71 billion in 2023. The market is projected to grow at a CAGR of 14.5% between 2024 and 2032 to reach around INR 3,655.81 billion by 2032

Strong demand prospects to boost earnings momentum :

The Indian cables & wires industry, offers huge growth potential led by increased traction in the infrastructure and real estate sectors. The cables & wires industry constitutes ~39% of the electrical industry and forms a crucial part of construction and infrastructure activities.

The demand for wires and cables in India is expected to ramp up with the expansion of renewable power generation, the upgrading of transmission and distribution infrastructure, rising investments in metro railways and smart grid initiatives, and the growing data center sector.

Globally, India is the third-largest producer and consumer of electricity. As of April 30, 2023, India had an installed power capacity of 416.59 GW. There is a growing number of investments in the power, telecommunication, and infrastructure sectors, including metros, railroads, smart grids, and data centres.

Some of the investments include Raipur Visakhapatnam Expressway (NH-130CD) with a funding of Rs 20,000 crore, Kala Amb smart grid project with an investment of Rs.19.44 crore, and USD 32.7 billion capital investment into the rail among several others.

Some of the factors driving the India cables and wires market growth are ongoing technological advancements and innovations by branded players. India aims to achieve 500 GW of renewable energy by 2030 and the Indian government is significantly investing in metro projects. The Government of India allocated approximately INR 19,518 crores in metro projects during the Union budget 2023-2024.

Government investments in metro projects; increasing adoption of renewable energy; rapid infrastructural development; and expansion of smart devices are favouring the Indian cables and wires market.

Trends Impact

Government investment in metro projects

The Indian government’s massive investment (19,518 crores) in budget FY23-24 is contributing to its expansion in

tier-2 cities. Around 674.22 km are under construction, and 192.77 km have already been approved. Increasing adoption of renewable energy India's aim is to achieve 500 GW of renewable energy by 2030, which fosters the installation of renewable energy sources such as solar and wind power.

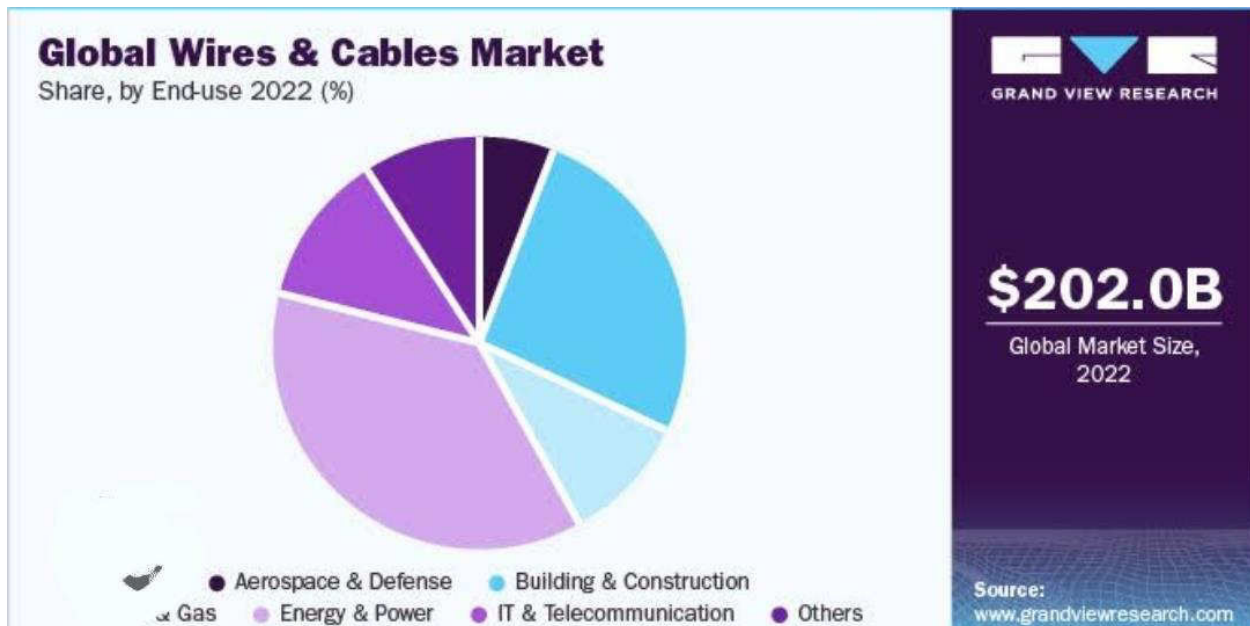

Infrastructure development

Under the National Infrastructure Pipeline (NIP), an average of 0.5%-2% of the project expenditure is expected to be spent on wires and cables.

The growth of social media and the proliferation of smart devices.

The Union Cabinet's approval of the final phase of the last-mile optical fibre-based broadband connectivity plan for households in 6.4 lakh villages in August 2023, creates the market opportunities.

Exports of cables & wires have been on a rising trend. India is now a net exporter of cables & wires.

Higher exports and market share gains to support organized players: The industry should benefit from the rising exports of cables from India, as exports have clocked a 16% CAGR vs. ~8% CAGR for imports over FY17-23 (~15% YoY growth during 9MFY24).

The cables & wires industry constitutes ~39% of the electrical industry and forms a crucial part of the construction and infrastructure activities of the government and private players. Intensifying focus on infrastructure, a strong traction in the real estate sector, an increase in electrification of villages, and rising nuclear families are expected to spur cables & wires industry growth.

The Indian cables & wires industry, along with FMEG products, is estimated to be ~INR1.8t in FY23. Intensifying focus on infrastructure and strong traction in the real estate sector are expected to spur growth for this industry.

The industry growth has been fueled by strong government focus on infrastructure development, rising trend of nuclear families, increase in electrification in rural areas, increase in exports of cables & wires, etc.

Some of the factors driving the India cables and wires market growth are ongoing technological advancements and innovations by branded players. India aims to achieve 500 GW of renewable energy by 2030 and the Indian government is significantly investing in metro projects. The Government of India allocated approximately INR 19,518 crores in metro projects during the Union budget 2023-2024.

High voltage is expected to dominate the India wires and cables market share as these are suitable for underground or underwater power transmission

The rising urbanisation in India and the growth of metro cities propel the demand for extra-high-voltage cables (EHV) in India. These cables are especially ideal for underground installations as they omit the risks of power theft and require reduced maintenance. High-voltage cables are ideal for power transmission and distribution. India's National Grid capacity is expanding continuously under the PM Gati Shakti National Master Plan, which is expected to add around 26,988 circuit km capacity by 2024-2025 in line with growing electricity generation and demand.

Low voltage wires and cables also occupy a significant share of the market due to their wide applications in the residential, commercial, and industrial sectors of the country. Low voltage wires are extensively implemented in building wiring for power distribution throughout the infrastructure. Moreover, they are utilised in electrical appliances such as lighting, switchboards, fans, and sockets, among others. Low voltage cables are also deployed in LAN networks and telecommunication for the transmission of audio, video, and internet data.

Zion Market Research

The demand for building wires is significantly increasing as they play an essential role in the commercial, residential, and industrial sectors

Building wires hold a significant share of the India wires and cables market. Building wires are extensively deployed in commercial, industrial, and residential establishments. These are essential components of branch circuit wiring in homes and businesses that carry electrical current for powering appliances. Through the Union budget 2023-24, the finance ministry of India allocated over Rs 79,000 crore (USD 9.64 billion) towards the Pradhan Mantri Awas Yojana (PMAY), representing a 66% increase compared to the previous year. PMAY, launched in 2015, aims to provide affordable housing to all citizens.

Copper is expected to dominate the India wires and cables market share in the coming years

By material, copper wires are anticipated to grow significantly due to their high electrical conductivity, ductility, and thermal resistance. Copper wire and cables work as great electrical conductors. Copper wires are commonly deployed in commercial and household electrical wiring. As a result, rising residential construction due to increased disposable income drives the demand for copper wires for powering TVs, computers, and kitchen appliances.

Wire And Cable Industry On The Threshold Of Industrial Revolution

After a decade of digitization, industries are moving with digitalization. Away from the legacy systems, be it the manufacturing processes, products, or machinery – all are getting the technology touch. This smart manufacturing or the industrial internet of things (IIoT) is the reflection of industrial revolution 4.0

From a broad perspective, the new industrial revolution is bringing in two key changes in the cable industry. When one is driven by the technology adaptation point of view, the other is another significant reason – that will soon drive the demand of domestic products from the brands investing in distinguished innovation and awareness campaigns.

□ Products with futuristic technology

More sophisticated, safer, and commercial/industry grade wires and cables will be required for specific-purpose devices and products. Even though some of these machines might be for domestic purposes, but the wire and cable products will still be in the commercial category adhering to specific standards proposed by the manufacturers or policymakers.

□ Products or brands associated with futuristic machines

With the widespread use of IoT devices and equipment, the domestic segment of the wires and cable market will soon see a different kind of demand. The demand will be for the products of particular brands and variants of commercial-grade products associated with popular IoT machines

The Indian Wire and Cable Market Report is Segmented by Cable Type (Power Cable (Low Voltage (LV), Medium Voltage (MV), High Voltage (HV) and Ultra High Voltage), Housing Wires (90 M Housing Wire and Other Types of Housing Wires), Communication Cables, Instrumentation and Control Cable, and Flexible and Specialty Cables for Industrial Applications), End-User Type (Consumers (B2C) and Businesses (B2B) (Construction, IT and Telecommunication, Energy and Power, Oil and Gas, and Other End-User Verticals)), and India Housing Wire (Maharashtra, Kerala, Gujrat, Tamil Nadu, Uttar Pradesh, Rajasthan, Punjab, Delhi NCR, Madhya Pradesh, Haryana, and Rest of India). The Market Sizes and Forecasts are Provided in Terms of Value (USD) for all the Above Segments. (Source: <https://www.mordorintelligence.com/industry-reports/india-wire-and-cable-market>)

Increasing Use of Wire and Cables in the IT and Telecommunication Segment in India

- India's IT and telecom segment has witnessed a surge in the demand for wires and cables, mainly driven by various factors, including expanding broadband services, the proliferation of smart devices, the implementation of 5G technology, and government initiatives like Digital India. These elements have created a growing demand for wires and cables.
- Further, India has seen an increase in broadband penetration over the last decade. According to the Telecom Regulatory Authority of India (TRAI), the country's broadband subscriber base has grown extensively. For instance, the telecom subscriber rate reached 102.4 million in Uttar Pradesh, followed by Maharashtra, Bihar, and Andhra Pradesh with 94.94 million, 94.90 million, and 86.46 million in 2023. This surge is largely due to the rising demand for high-speed internet connections. As the subscriber bases increase, many telecom companies in India have rolled out fiber optic cables.
- For instance, in January 2024, BSNL announced its plan to upgrade its copper network to optical fiber in Ernakulam in the last quarter of 2024 to provide high-speed internet. As a part of this initiative, the company aims to upgrade 1.2 lakh copper connections to fiber cables in Tamil Nadu. Such initiatives by the telecom companies have boosted the demand for cables, driving the growth of cable in the telecom industry.
- Moreover, the proliferation of data centers in India has been a major catalyst in driving the demand for wires and cables. Many IT and telecom companies operating in India are opening new data centers. For instance, in January 2024, a joint venture of Digital Realty Trust, Reliance Industries, and Brookfield Infrastructure Partners announced the launch of a 20 MW greenfield data center, MAA10, in Chennai. Such data centers require many cables, including high-speed fiber optic cables, to ensure efficient and uninterrupted data transmission.

Major Players

*Disclaimer: Major Players sorted in no particular order

India, the third largest cable market globally, consumed a total of 1,266 kt of insulated metallic wire and cable in 2023, comprising almost 6% of world consumption, only behind China (42%) and the US (9%). India's insulated metallic wire and cable demand is expected to grow 7.8% y/y in 2024 and is expected to exhibit healthy growth of 6.4% CAGR between 2023–2028.

Despite a global economic slowdown, India's economy remains vigorous. Following a 7% GDP growth in 2023, it is expected to maintain a strong 6.1% growth in 2024, slightly tempered by election disruptions. This growth is driven by robust domestic demand and a thriving manufacturing sector.

OPPORTUNITIES IN VARIOUS SECTORS:

Cable and wire industry has established itself as one of the backbones of modern information age. The increasing

importance for power, light and communication has kept demand high for wire and cable. This trend will continue as demand for reliable, efficient energy and data communications will strengthen the wire and cable industry. Cables play a small but significant part in infrastructure activities. With strong investments proposed across sectors such as power, realty, industrial and telecom the cable industry in India is slated for a strong growth going forward. Apart from the above, Government impetus in refineries, ports, airport modernization, power and fertilizers will offer a boost to the wire and cable industry as almost all manufacturing companies need cables. Robust industrialization and growing urbanization are also one of the important drivers identified. Auto sector and railways are the other important sectors consuming wires and cables on a large scale. Additionally, growth will be fuelled by urbanization as cables and wires will be required in buildings and offices.

POWER:

The power sector provides one of the most important inputs for the development of a country. Power sector is the biggest driver in the mainstay of cable demand, accounting for more than three-quarters of the market. Power is the core industry as it facilitates development in various sectors of the Indian Economy like agriculture, manufacturing, railways etc. It is considered that the growth of the economy is expected to boost the electricity demand in future. Also, there is a strong correlation between the GDP growth and increase in power generation capacity of an economy.

The positive trend in the power sector is one of the most important catalysts for the wire and cable industry. Cables play a crucial part in all the three aspects of the power sector - generation, transmission and distribution. Therefore, the trend of wire and cable industry is to some extent dependent upon the power sector.

REAL ESTATE SECTOR:

The Indian real estate sector is one of the most globally recognized sectors. In the country, it is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. It comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations.

Growth in the real estate sector is essential to the wires and cable industry.

AIRPORT MODERNIZATION:

Aviation is one of the most important industries for the Nation. It connects India's vast geography more time-efficiently than any other mode of transport. The vision of India becoming the third largest aviation market by 2021, India's aviation sector is witnessing a steady growth where domestic passenger traffic handled at Indian airports stood at 122.43 million in 2013-14 as compared to 116.37 million in 2012-13. The growth in international passenger traffic at Indian airports increased to 46.62 million in 2013-14 as compared to 43.03 million, witnessing a growth of 8.34%.

Airport Authority of India (AAI) has identified Surat airport and 28 other metro and non-metro airports in the country for modernization. This would motivate domestic and global airlines to start operations from these airports to newer destinations thus helping improve air connectivity. The Government of India has decided to award airports in Kolkata, Chennai, Jaipur and Ahmedabad on management contract. The Airports Authority of India (AAI) has issued 'Request for Qualification' document for these four airports.

Increased activity in Airport modernization shall add to the demand for specialized cables.

RAILWAYS:

The Indian Railways' contribution to national integration has been unparalleled. It connects industrial production centres with markets and with sources of raw materials and facilitates industrial development and link agricultural production centres with distant markets. It provides rapid, reliable and cost-effective bulk transportation to the energy sector, to move coal from the coal fields to power plants and petroleum products from refineries to consumption centres. It links places, enabling large-scale, rapid and low-cost movement of people across the length and breadth of the country.

Vision 2020 addresses another major development challenge, which is both national and global in nature, namely,

reducing hazardous carbon emissions that have triggered climate change. So far, there has been inadequate recognition of the Railways' contribution towards India's climate protection efforts.

Vision 2020 addresses one of the biggest development challenges of contemporary India, namely, Growth with Jobs and not Jobless Growth. Vision 2020 aims at considerably enhancing the Indian Railways' contribution to the national goal of achieving double-digit GDP growth rate on a sustainable basis.

Some of the major goals set for 2020 in the document include:

- (a) Establish quality of service benchmarked to the best of the railway systems in the world;
- (b) Target to achieve Zero accidents;
- (c) Target to achieve Zero failures in equipments;
- (d) Utilize at least 10% of its energy requirement from renewable sources;
- (e) Institute a foolproof eco-friendly waste management system;
- (f) Complete 4 high speed corridors of (2000 kms) and plan development of 8 others.

HYDROCARBONS:

OIL AND GAS: India produced 37.5 million tonnes of crude oil during 2015-16. Two-thirds of the oil produced in India's is drilled from offshore fields. Onshore oil is mainly produced in Assam and Gujarat. Indian Oil, India's second largest oil refining company, is ranked 19th globally. India exported over 59 MMT of petroleum products valued at Rs 1.96 trillion. India's oil refining capacity amounted to 215 MMTPA (Million Metric Tonne Per Annum) in Apr 2015 placing India in the fifth position in the world after the United States, China, Russia and Japan. Total refined crude output was 223 million tons in 2015-16, i.e. over 100% of installed annual capacity.

CBM: India produced 33.66 billion cubic meters of natural gas in 2015-16, much of which was onshore. New gas field discoveries along the eastern coast of India could mark a significant increase in gas production and distribution. Cross-country gas pipelines are being planned and Reliance eg has applied for gas distribution licenses in 100 cities for the supply of gas to consumers. An estimated 650 bn cubic meters of gas reserves of ONGC and Reliance Industries lie untapped in the Krishna-Godavari basin.

SHALE GAS: Shale gas is natural gas produced from shale, a type of sedimentary rock. Shale gas has become an increasingly important source of natural gas in the United States over the past decade, and interest has spread to potential gas shales in Canada, Europe, Asia, and Australia. One analyst expects shale gas to supply as much as half the natural gas production in North America by 2020. Many countries have expressed environmental concerns which have led to restrictions on hydraulic fracturing to produce shale gas or oil. Although the shale gas potential of many nations is being studied, as of 2013, only the US, Canada, Mexico and China produce shale gas in commercial quantities, and only the US and Canada have significant shale gas production. A multi-organizational team of the Director General Hydrocarbons (DGH), Oil and Natural Gas Corporation (ONGC), Oil India Limited (OIL), Gas Authority of India Limited (GAIL) has been formed by the government to examine the existing data set and suggest a methodology for shale gas development in India.

REFINING: India is emerging as a refinery hub as the last decade showed a tremendous growth in the refining sector. India has 17 public sector refineries and five refineries in the private sector/or as a joint venture, the largest refineries being RIL Jamnagar (Gujarat), RPL Jamnagar (Gujarat), MRPL Mangalore (Karnataka), CPCL Manali (Chennai, Tamil Nadu) and IOC Koyali (Gujarat). Three new refineries have been proposed for implementation at Paradip (Orissa), Bina (Madhya Pradesh) and Bhatinda (Punjab). In the 12th Five year plan period 50 million tonne will be added to the total refining capacity of India through capacity expansion projects of existing units. While new refinery units, which are expected to come up in the near future, will add up to 90.5 million tonne to India's total refining capacity.

With strong investments proposed across sectors, the cable industry in India is slated for a strong growth going forward.

RISKS AND CONCERNS:

Liquidity Risk: liquidity risk is the risk that a given security or asset cannot be traded quickly enough in the market to prevent a loss. All businesses need to manage liquidity risk to ensure that they remain solvent. The company

Relicab Annual Report 2023-24

manages the liquidity risk through prudent resource planning to ensure the availability of adequate funds at all times to meet its obligations on its liabilities as well as disbursement on due dates.

Finance Cost Risk: Finance Cost risk arises due to payment of high rate of interest on term loans and other funds & non fund based facilities being availed by the company from banks and other financial institutions. The company tries to minimize this risk by keeping a check on the interest rates charged by various banks and by swapping its long term/short term loans with banks charging lesser interest rates.

Raw Material Availability and Price Fluctuations: Scarce availability and price-volatility in Company's Basic Raw Materials - Copper, Aluminium, Steel, and PVC etc. can severely impact the profits of the Company. To mitigate these risks, the Company inculcates MOUs with its suppliers, price escalation clauses for large orders and hedges these raw-materials on the commodity exchange

Foreign Exchange Risk: Foreign exchange risk is a financial risk posed by an exposure to unanticipated changes in the exchange rate between two currencies. Company imports a part of its raw materials and is also engaged in export of its products. To mitigate this risk, the company resorts to forward booking where deemed appropriate.

Human Resource Risk: In the absence of quality human resources, the company may not be able to execute its growth plans. To mitigate this risk, the company places due importance to its human capital assets and invests in building and nurturing a strong talented pool to gain strategic edge and achieve operational excellence in all its goals.

PERFORMANCE:

The management was focused on optimizing cost efficiencies to enable the business to cope with the economic crisis. This has enabled the Company to export its products in competitive global markets like Russia, Uganda, Indonesia, Nigeria, Singapore, and UAE, which contribute a major part of the total exports turnover. The Company's products are well recognized in the domestic market and the Company has been a land mark in producing a high quality product.

OPERATIONS:

The Company achieved a sales turnover of 3801.63 (Rs. in Lakhs) in current year as compared to 3456.23 (Rs. in Lakhs) in previous year. The Company earned a profit of 175.01 (Rs. in Lakhs) before tax and 154.25/- (Rs. in Lakhs) after tax. With favorable market conditions, your Directors expect better performance in future.

SEGMENTAL OVERVIEW:

The company operates under a single product segment i.e. Cables. The company mainly focuses on specialized cables which differentiates it from other cable players in the country.

INTERNAL CONTROL SYSTEM:

The system of Internal Control provides for maintenance of proper accounting records, reliability of financial information and assures its operations are effective and efficient, and its activities comply with applicable laws and regulations. The internal audit is carried out by an independent firm of Chartered Accountants and covers all the key areas of the company's business.

INDUSTRIAL RELATIONS AND HUMAN CAPITAL:

The Company strives to provide the best working environment with ample opportunities to grow and explore. The Company maintained healthy, cordial and harmonious industrial relations at all levels throughout the year. Every initiative and policy of the Company takes care of welfare of all its employees. The human resource development function of the Company is guided by a strong set of values and policies.

FUTURE OUTLOOK:

The vision of CORDS is to be recognized as a leading global player, providing products and services, offering comprehensive solutions to the electrical and data connectivity requirements of businesses as well as household users. It focuses on capturing new markets by developing customers in new and existing territories, to provide new cables

Relicab Annual Report 2023-24

for special applications like solar, marine, low temperature cables, cables for automobiles etc.

CAUTIONARY STATEMENT:

Statement made in this report in describing the company's objectives, estimates and expectations are "Forward looking Statement" within the meaning of applicable laws and regulations. INDEPENDENT AUDITOR'S REPORT

To the Members of
RELICAB CABLE MANUFACTURING LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **RELICAB CABLE MANUFACTURING LIMITED** (the "Company"), which comprise the Balance Sheet as of **March 31, 2024**, the Statement of Profit and Loss (including other Comprehensive Income), statement of Cash Flows for the year ended, and statement of change in equity and notes to the financial statement including a summary of material accounting policies and other explanatory information (hereinafter referred to as "financial statements".)

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Accounting Standard prescribed under section 133 of the Act, and other accounting principles generally accepted in India, of the state of affairs of the Company as at **March 31, 2024**, its *profit* and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act.

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Auditors' opinion on the KAM
1) Company has captive consumption of compound in their cable division, the recording of captive consumption of compound and substantial reduction in the sale of the compound segment.	<p>Our audit procedure includes and were not limited to the following: -</p> <ul style="list-style-type: none"> • Assessed the captive requirement of the company and capacity of the equipment's. • Discussion with the Management on the market scenario of the compound and demand by existing customers. • Reviewed the disclosures made by the Company in the financial statements. • Obtained representation letter from the management on the assessment of these matters.

Responsibilities of Board of Directors and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they

could reasonably be expected to influence the economic decisions of users taken based on these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those

matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The financial statement dealt with by this report is in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has no other pending litigations, except those disclosed in the financial statement, which would impact on its financial position.

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
- iii. There are no amounts, that are required to be transferred, to the Investor Education and Protection Fund by the Company
- iv.
 - a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on audit procedures which we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material misstatement.
- v. No Dividends have been declared by the company during the financial year.
- vi. During our examination, which included test checks, we observed that the company utilized an accounting software to maintain its books of account. However, this software lacks the feature of recording an audit trail (edit log) as required by the Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014. Consequently, this functionality was not operational for all relevant transactions recorded in the software during the year

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

- h) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act, in our opinion and according to the information and explanations given to us, the company has paid managerial remuneration within the limit prescribed by section 197 for maximum permissible managerial remuneration provided to the directors of the company.

“Annexure B” to the Independent Auditors’ Report on the financial statements of Relicab Cable Manufacturing Limited

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (Referred to in paragraph 1(A)(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of **Relicab Cable Manufacturing Limited** (“the Company”) as of **31 March 2024** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at **31 March 2024**, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Board of Directors Responsibility for Internal Financial Controls

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as “the Act”).

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining

an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

RELICAB CABLE MANUFACTURING LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2024

General company profile :

Relicab Cable Manufacturing Limited (the 'Company') was incorporated on 23/02/2009 as Private Limited Company under the Companies Act 1956 and the same was converted in Public Limited Company on 22nd September, 2015. The company is engaged mainly in manufacturing cables and wires. The Company has manufacturing plants in Daman and sales in Domestic as well as International market. The Company is listed on SME Platform of Bombay Stock Exchange (BSE) .

These financial statements for the year ended 31st March, 2024 were approved for issue by the Board of Directors in accordance with their resolution dated 29th May, 2024.

I Material Accounting Policies:

(A) Basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities which are measured at fair value.

(c) Functional and presentation currency

These Ind AS financial statements are presented in Indian Rupees (INR) in Lakhs, which is the Company's functional currency. Owing to the nature and size of the business, all the financial information has been rounded-off to the nearest Indian Rupees in Lakhs.

(B) Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates and judgements are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements

The accounting estimates are monetary amounts in financial statements that are subject to measurement uncertainty. The amendment further clarifies on developing accounting estimates, circumstances under which changes in accounting estimates may be required and how to apply changes in accounting estimates. The Company does not expect the amendment to have any significant impact in its financial statements.

Estimates and assumptions are required in particular for:

- Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalised. Useful lives of tangible assets and intangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on management estimate, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Assumptions also need to be made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.
- Impairment test of non financials assets: key assumptions underlying recoverable amounts including the recoverability of expenditure on internally -generated intangible assets.

• Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Financial Officer.

They regularly review significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values then the finance team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

(C) Property Plant & Equipment & Depreciation :

(i) Property Plant & Equipment

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met and directly attributable to cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(ii) Depreciation:

- 1) Depreciation on fixed assets is provided on written down value method for the period for which the assets have been used. Depreciation on assets is provided over the useful life of assets as prescribed under schedule II of Companies Act, 2013.

- 2) Depreciation on the fixed assets added / disposed off / discarded during the year has been provided on pro rata basis with reference to the date of addition / disposition /discardation.

(D) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

c) any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18

At the time of recognition of impairment loss on other financial assets, the Company determines that whether there has been a significant increase in the credit risk since its initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance/ reversal is recognised during the period as income/ expense in the statement of profit and loss. In case of financial assets measured as at amortised cost, ECL is presented as an allowance. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount but is disclosed as net carrying amount.

(E) Borrowing Costs :

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(F) Taxes :**Income Tax**

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates items recognised directly in equity or in other comprehensive income.

The recognition of deferred tax asset or liability on a transaction that is not a business combination, affects neither accounting profit nor taxable profit and does not give rise to equal taxable and deductible temporary differences is not permitted by the standard. The Company does not expect the amendment to have any significant impact in its financial statements

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Minimum Alternate Tax ('MAT') under the provisions of Income-tax Act, 1961 is recognised as current tax in the statement of profit and loss. MAT paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is a convincing evidence that the Company will pay normal tax. Accordingly, MAT is recognised as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Company.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

(G) Provisions

A provision is recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(H) Inventories :

Items of inventories are measured at lower of cost or net realisable value after providing for obsolescence , if any. Cost of Inventories comprises of cost of purchase , cost of conversion and other costs incurred in bringing them to their respective present location and condition.

Work in - progress and finished goods are valued at lower of cost and net realisable value. Cost of work in progress and finished goods is determined on absorption costing method which include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Excise duty is included in the value of finished goods.

(I) Income / Expenses Recognition :

- (i) Domestic Sales are recognized on dispatch of goods from factory and Export Sales on transfer of significant risk & rewards of ownership of such goods. Sales are disclosed net of sales tax / Value added tax, discounts and sales return as applicable.
- (ii) Revenue from labour job is recognised on the basis of execution of job.
- (iii) The company accounts for excise duty rebate, duty entitlements and other incentives on exports on accrual basis.
- (iv) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

(J) Foreign currency:

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. Monetary items remaining unsettled at the year end are translated / reported at the year end rate. Any gain or loss arising on account of exchange difference either on settlement or on translation is recognized in the Statement of Profit and Loss except in case of Long Term Liabilities.

(K) Employees Benefits :

Short Term Employee Benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service rendered.

Retirement Benefits :

- i) Retirement benefits in the form of Provident Fund , which are defined Contribution Plans, are accounted on accrual basis and charged to the Statement of Profit and Loss of the Year.
- ii) Retirement benefits in the form of Gratuity which is a defined benefit plan and accrued on the basis of an independent actuarial valuation applying the Projected Unit Credit Method.
- iii) The actuarial gains/losses arising during the year are recognised in the Statement of Profit & Loss of the year.
- iv) The actuarial valuation is carried at the end of each financial year.

(L) Lease accounting:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

As a Lessee -

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been adjusted towards rent expenses in the Statement of Profit and Loss.

(M) Provisions, Contingent Liabilities and Contingent Assets :

Provisions involved substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

(N) Earning per Share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

(O) Cash and cash equivalents :

35 Financial Instruments

Capital Risk Management

The company's objectives when managing capital is to safeguard continuity as a going concern and provide adequate return to shareholders through continuing growth and maintain an optimal capital structure to reduce the cost of capital. The Company sets the amount of capital required on the basis of annual business plan and long-term operating plans which include capital investments.

Financial Risk Management

A wide range of risks may affect the business and financial results. Amongst other risks that could have significant influence on the Company are market risk, credit risk and liquidity risk.

The Board of Directors manage and review the affairs of the Company by setting up short term and long term budgets by monitoring the same and taking suitable actions to minimise potential adverse effects on its operational and financial performance.

The Company is exposed to the following market risks:

(a) Credit Risk

Credit risk refers to the risk that the counter party will default on its contractual obligation resulting in financial loss. The Company has adopted a policy of dealing with only credit worthy counter parties. This risk principally arises from credit exposures to customers, deposits with banks and financial institutions and other receivables.

(b) Liquidity Risk

Liquidity risk refers to the risk that may not be in a position to meet its financial obligations timely. Management monitors rolling forecasts of the liquidity position (comprising of undrawn bank facilities and cash and cash equivalents) on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

(c) Market Risk

Market Risk is the risk that the value of on and off-balance sheet positions will be adversely affected by movements in market rates or prices such as interest rates, prices resulting in a loss to earnings and capital.

Capital Management

The Company sets the amount of capital required on the basis of annual business and long-term operating plans.

The funding requirements are met through a mixture of equity, internal fund generation, convertible and non convertible debt securities, and other short term borrowings. The Company's policy is to use short term and long-term borrowings to meet anticipated funding requirements.

The Company monitors capital on the basis of the net debt to equity ratio. The Company is not subject to any externally imposed capital requirements.

Net debt are long term and short term debts as reduced by cash and cash equivalents (including restricted cash and cash equivalents) and short-term investments. Equity comprises all components of equity without any exclusion.

The debt equity ration of the Company are as given below:
